

Thank you for your interest in joining Five One Invest's first masterclass, **“Expansion Strategies and Scaling Techniques!”**

This masterclass is aimed at growth-stage startups looking to grow and expand their businesses. Growing a business is a crucial step in the development of a business. However, the timing and approach to growth vary depending on the industry, financial situation, and business goals. The course will provide founders with tools to help plan their expansion, support a growth mindset, and analyze their opportunities and strengths.

Who will benefit from this masterclass?

This masterclass is aimed at growth-stage startups that have been operational for over a year. The founders who will benefit the most are those who intend to grow, develop, and expand their businesses within the next year to six months.

The masterclass objective is to help founders identify when to expand, Identify how to expand and feel confident in their expansion plan

Masterclass content includes:

- Interactive group activities
- Lectures
- Discussions
- Brainstorm sessions
- Multimedia
- Case studies

Perks of the masterclass:

- Newly developed curriculum
- Access to one-on-one advisory sessions with the trainer after the masterclass
